In Force July 7, 1909**

That any person who wilfully and for profit shall infringe any copyright secured by this act, or who shall knowingly or wilfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both, in the discretion of the court.

PUBLISHERS NOTE

The information in this Directory is gathered by an actual canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the directory.

Hill Directory Co., Inc., Publishers

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of South-eastern Directories, present to subscribers and the general public, this, the 1959 edition of the Williamston City Directory, which also includes the rural routes emanating from the Williamston Post Office.

This is the first Hill Directory of Williamston and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Williamston industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Williamston to the world.

The enviable position occupied by Hill's Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers felt that the result of their labors will meet with the approval of every user, and that the Williamston Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

1. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity arranged in alphabetical order under appropriate headings—a catalog of all the activities of the City and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Williamston, the necessity of having this kind of information up-to-date and always immediately available is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Williamston, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the fourth major department.

V. THE WILLIAMSTON RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Williamston and vicinity. There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc., is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

WILLIAMSTON

"Williamston on the Roanoke"

Statistical Review

(Courtesy Williamston Chamber of Commerce)

Form of Government—Commissioners and Mayor.
Incorporated as a town 1779.

Population—Last official U. S. Census report 4,975; Govt. estimate at present 7,000; local estimate at present 7,000.

Area—2.86 square miles.

Altitude—72.5 feet above sea level.

Climate—Mean annual temperature, January 44.20 degrees F., June 79.40 degrees F; average annual rainfall 49.73 inches.

Assessed Valuation—\$6,992,094.00, with \$2.00 per \$100.00 tax rate.

Bonded Debt—\$366,500.00. Other obligations \$50,000.00.

Financial Data—2 banks, with total deposits of \$8,875,105.04 (January 1, 1959); total resources of \$9,168,864.12 (January 1, 1959). 1 Building and Loan Association, with total assets of \$4,227,790.90 (December 31, 1958).

Postal Receipts—\$281,491.10 for year ended 1958.

Telephones in service 2,227.

Churches—26, representing 6 denominations.

Building and Construction—55 building permits, valued at \$813,490.00, issued in 1957.

Real Estate—120 transfers valued at \$500,000.00. 2,000 homes, with about 60% owned by occupants.

Industry—12 manufacturing establishments, employing 1147 men and women, paying average wages of \$55.82 weekly.

Trade Area—Retail area has radius of 4 miles.

Newspapers—1, semi-weekly.

Radio Broadcasting Stations—WIAM.

Television Stations—2 stations in a 30 mile radius.
Good reception.

Railroads—City served by Atlantic Coastline.

Highways—U. S. 64 and 17. State 125.

Air Lines—City served by Capital air line. Rocky Mount—48 miles.

Airports—1, municipal.

Automobile Registrations—1750-1800.

Amusements—1 golf course. Teen-Age Club—
Little League Baseball—Pony League Baseball—Tennis Courts—Swimming Pool.

Hospitals—2, with total of 70 beds.

Education—2 public schools, with 2 senior high schools. 2,667 pupils in public schools. 92 teachers in

public schools. Value of public school property, \$1,201,-580.00.

Public Libraries—2, with total of 3600 volumes. \$30,000.00 library under construction.

City Statistics—Total street mileage 24.89, with 10.82 miles paved and 14.07 miles unpaved. 39.5 miles of sewers. 1950 water meters; 2600 light meters. Capacity of water works 1200 G.P.M. gallons, with daily average pumpage of 475,000 gallons, 22.5 miles of mains, and plant valued at \$175,000.00. Fire department has 2 paid men, with 1 station and 3 pieces of motor equipment. Value of fire department real estate and equipment, \$60,000.00. Police department has 9 men, with 1 station and 2 pieces of motor equipment. Birth rate 754; death rate 245.

Williamston, with an estimated 1959 population of more than 7,000, is the county seat and Martin County's largest urban community. First called Skewarky, the town was later renamed Williamston in honor of Colonel William Williams of the Martin County Militia. Chartered in 1779, the first mentioned date of its location in recorded history is 1587 when white colonists are said to have reached this far in exploring the Roanoke River. The explorers landed on the river bank for an overnight stay, but were driven back to their boats by the Tuscarora Indians in what may have been the first battle in history between the American Red man and English speaking whites.

Located near the center of the county on the south bank of the Roanoke, Williamston is in the center of a geographic circle, which, at a distance of approximately 100 miles, encompasses the state capital at Raleigh, the busy seaport of Norfolk, historic Roanoke Island and the beaches of Dare County and the U. S. Marine Base at Camp Lejeune. It is easily accessible by land transportation of all kinds, has a navigable waterway, and is only 50 to 65 miles from commercial airports at Rocky Mount, Elizabeth City, and New Bern.

Since 1930, Williamston has experienced a record growth unlike that of any comparable period in its history as its population swelled from 2,731 to the more than 7,000 of today. In the growth, its position as a hub of transportation in eastern North Carolina has been vital.

A port of entry before the Revolutionary War, Williamston is still an important terminal point of water freight cargos. Principal among commodities handled by river freight are raw and finished fertilizer products, timber, and oil refinery products brought in by tankers from Norfolk. One oil terminal, operated by the Texas Company, has a storage capacity of more than two million gallons and services an area extending as far as 75-miles away from Williamston.

Williamston also has freight and express services over the facilities of the Atlantic Coast Line Railway Company, and it is located only 20-miles from the main line of the Norfolk and Southern Railway Company at the ACL terminus at Plymouth. Several truck lines serve Williamston, one of which, Thurston Motor Lines, has a modern terminal here.

It has been the state and federal highways constructed during the period, however, that have served most to stimulate Williamston's emergence as a hub. These highways, U. S. 13, 17 and 64 and N. C. 125, connect Williamston directly with Norfolk, Elizabeth City and Portsmouth to the north, with Wilmington and Charleston to the south, with Manteo to the east, with Raleigh and Memphis to the west, with U. S. Highway 301 to the northwest, and with Goldsboro to the southwest. These roads channel into and out of Williamston all kinds of commerce associated with eastern North Carolina. They also serve the heavy tourist and local passenger traffic, and the passenger buses of Carolina Trailways.

The result is that Williamston today is a community of widely diversified interests; of agricultural marketing and processing facilities, of commercial enterprises and of utility operations.

It is, for example, the Southern Division and 14-county Albemarle District headquarters of the Virginia Electric and Power Company. It is also an important operations center for the Carolina Telephone and Telegraph Company. Both utilities have the most modern of plant equipment and have capacities for almost unlimited load growth. The power company moved into a new quarter-million dollar headquarters building in December 1958, and this building and its grounds are considered to be one of the section's most attractive commercial establishments.

For many years, the population of Williamston was almost entirely static. Today, because of this influx of regional operations, a sizeable segment is transient with increasing percentages establishing permanent residences here. The direct result of this has been a home building program that, within a few years, has completely altered the face of the community. It is conservatively estimated that at least 25 percent of the housing until within the town are less than 15 years old.

To finance its growth, Williamston is served by two banks, units of the Branch Banking & Trust Company and of the Guaranty Bank & Trust Company, and by the Martin County Savings and Loan Association. In addition to these institutions, a number of insurance companies and other financing agencies find the Williamston area attractive for investment.

Williamston, governed by a Mayor and five Commissioners, elected as a group every odd calendar year,

had an assessed property valuation, based at 25% of actual, of \$6,709,058 in 1958 with a \$2.00 per \$100 tax rate. The bonded indebtedness at the time was \$366,500.

Nine uniformed officers staff the town's police department, which is provided with two radio-equipped patrol cars. One full time and one part time fireman are on the fire department payroll, and these two men are assisted by an excellent volunteer group. Three modern and well-equipped trucks make up the automotive fleet of the department.

Water for Williamston's needs is supplied from several deep wells which have a maximum capacity of about 1,750,000 gallons per day. The storage capacity totals 625,000 gallons, and the present average use per day is approximately 500,000 gallons. The quality of the water from these wells is very good, with an average hardness content of as little as six parts per million. In addition to the well supply, water from the Roanoke River, which has a minimum flow of 538,800 gallons per minute, is satisfactory for industrial and domestic use after filtration.

Of some 25 miles of streets within Williamston, approximately 40% are surfaced, three more miles are graveled, and approximately 50% of the total are curbed and guttered. Refuse disposal is made on a state approved land fill located one mile east of town, and collections of refuse are made daily in the business districts and three times weekly in the residential areas.

Two high and two grade schools with combined enrollments of nearly 4,000 are the basic educational facilities for the children of Williamston and the surrounding rural areas. Augmenting these are two public libraries, one of which is scheduled to move before long into new quarters financed by public subscription. Nearby colleges include East Carolina, 30 miles away at Greenville, Atlantic Christian, 55 miles away at Wilson, Chowan, 56 miles away at Murfreesboro, and State Teachers, 65 miles away at Elizabeth City.

Six physicians, two dentists, and two optometrists, serve the town. Two hospitals, Martin General and Brown's Community, have a total of 80 beds, and the Martin County Health Center provides public health services to the community.

Located within a rich agricultural section, Williamston has a diversified industrial activity which keeps the trade economy balance. Evidence of that lies in recent year locations here of chain retail outlets that share the market with independent operators.

The industries are varied, ranging from fertilizer, insecticides, and irrigation products plants of the Olin-Mathieson Chemical Corporation to several large sawmills, four tobacco marketing warehouses, the Williamston Peanut Company, and the two year-old processing plant of Martindale Foods, Inc. The latter, which was

organized through the effort of the local Chamber of Commerce is recognized by state leaders as one of the most outstanding projects to ever be developed by local initiative.

Williamston, a town of friendly people, is a community of 16 churches representing all major Protestant and Catholic faiths. It is also a town of civic cooperation fostered by several civic and fraternal groups.

The community is served by one drive-in and two uptown theatres. And on the south side of the town is located one of the most modern country clubs in eastern North Carolina. Boasting a lavish club house, a nine hole golf course and two tennis courts, the Roanoke Country Club is considered one of the section's show places, and hardly a week passes when it is not the scene of an area or sectional meeting. Williamston also has a swimming pool, operated by private management, and there is an unusually well balanced program of youth activities within the town.

For the sportsman, Williamston's position on the map could hardly be more strategic. The Roanoke River, though more widely known in the past for its extensive commercial operations, is now rapidly gaining fame for its vast stock of game fish. Bass, crappie, and perch are increasing in large numbers not only on the river proper but within its tributaries as well.

The lowlands of the river abound in game of all kinds climatically adapted to the section. The range of this game is from squirrel to deer, and the abundance of the latter has attracted governors and U. S. Senators and people of many other prominent positions to the section.

Within easy reach of Williamston, some 70-miles away, is one of the most widely known wild fowl hunting centers in the country. This refuge at Lake Mattamuskeet is the winter home of thousands of Canadian geese which attract hunters from widely spread parts of the country.

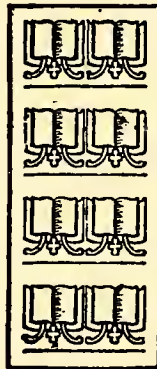

Williamston has a 1000 watt commercial radio outlet in WIAM, and a bi-weekly newspaper, The Enterprise, that has a circulation of some 3,745. The town is also within 20 miles of an NBC TV outlet, and it is only 30 miles from a CBS TV station. Both of these stations operate with 100,000 watts of video power.

For its size, Williamston is exceptionally well equipped to care for tourists and other transient guests. Its seven motels, all but one of which is less than ten years old, have more than 100 room units most of which are air-conditioned and TV equipped. Four of these motels have dining room facilities and, of these, three have coffee shops; three also have swimming pools.

Williamston, "On The Roanoke" is approximately 72.5 feet above mean sea level and has an average annual precipitation of 49.73 inches which is almost perfect for its agricultural economy. Its average temperatures for

January and July 44.2 and 79.4 degrees Fahrenheit, respectively, are also conducive to agriculture and to comfortable year-round living.

The town, 180 years of age, is young in spirit, and although it looks backward with pride it knows that its future lies not in its history, but is being molded by what is done today. Looking toward an increasingly brighter future, the people of Williamston have geared themselves to inevitable changes in the face of their town. The Williamston Chamber of Commerce stands ready at all times to answer inquiries concerning the town. It also stands ready to show visitors the present day Williamston and to discuss its potentials with them.

**Do your employers furnish you with
the latest edition of the City Directory?**

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Know Your Endorser

● The United States Secret Service has launched a "KNOW YOUR ENDORSER" Campaign against check forgery to supplement its highly successful "KNOW YOUR MONEY" drive, which, over a period of six years, reduced the amount of counterfeit money in circulation by more than 97 per cent.

We can all cooperate in this long-pull educational program and thus eliminate the market for froged checks by making it dangerous and unprofitable for forgers to operate. Here are a few simple rules for those who cash checks and those who get them cashed.

If You Cash Checks for Others

1. DEMAND PROPER IDENTIFICATION. Remember that lodge cards, Social Security cards, auto licenses, letters and the like can be forged and stolen. A forger's credentials are often forgeries themselves. Proper identification can best be determined by asking yourself this question: "IF THIS CHECK IS RETURNED, CAN I FIND THE PERSON WHO GAVE IT TO ME?"
2. Always demand that the person cashing the check endorse it in **your presence**. Even though the check has been endorsed, insist that he endorse it again.
3. Do not cash checks that show any alteration of their face. Altered checks are usually forged checks.
4. If you are an employer and more than one employee of yours is empowered to ash checks, be sure that they initial every accepted check so that you can identify the person who cashed it.
5. You can safeguard your merchandise, your cash, and your profits from check forgers by following these simple rules every time you cash a check. Make these practices routine. Remember you lose if you cash a forged check.

If You Get Checks Cashed

1. BE SURE some member of the family is at home when checks are due to be delivered. Get the check as soon as it arrives.
2. PRINT your name clearly on your mail box. EQUIP your mail box with a lock if you have not done so.
3. CASH your checks in the same place each month. This will make identification easier.
4. DO NOT ENDORSE your check until you are in the presence of the person you will ask to cash it.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

WHY A YELLOW PAGE SECTION?

The Yellow Page Section is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

***It is customary to include a Yellow Page Section in the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

EXPLANATION

Wives names are listed with husbands, the name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).
 In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in heavy type denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson.)

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address, other members of the family and roomers are indicated by r preceding the street address.

Out of Sight - Out of Mind

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

Tel. SWift 2-3137

HILL'S**WILLIAMSTON****Directory of Householders, Occupants of Office
Buildings and Other Business Places, Includ-
ing a Complete Street and Avenue Guide****1959**

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting street being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

CONSULTATIONS OR CIRCULATION

**CITY DIRECTORY
ADVERTISING
is *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

ADVERTISING JUDICIOUSLY

CREATES a New Business

REVIVES a Dull Business

ENLARGES an Old Business

RESCUES a Lost Business

PRESERVES a Large Business

SECURES Success in Any Business

SAVES a Failing Business

ENABLES You to Pay Your Taxes

**DIRECTORY ADVERTISING
BRINGS SATISFACTORY RESULTS!**

VITAL INFORMATION AT YOUR FINGER-TIPS

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communications, etc. Also, Directory usage is up among regular subscribers.

More People Are

SEEING CITY DIRECTORY ADS

Features and Departments of a City Directory

and comprehensive catalog ever published of the inhabitants. Your new, improved City Directory is the most complete of its kind, containing all the names, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1

An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2

A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3

A *Classified Business Directory* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4

A "*Yellow Section*" or *Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5

A *Statistical and Historical Story* of your city, plus miscellaneous other information.

Vital Information at Your Fingertips"—The City Directory
